**The promised code for IntelliJ Ultimate Edition for 6 months:**

**ArkadiuszWodarczyk**

Enter it at: https://www.jetbrains.com/store/redeem/

With the code: **GameDevForNoobs** – an additional 25% discount for the whole year.

I don't get anything from this code, I simply wrote to them asking if they could provide something for my students :) I hope it's still valid – if not, message me and I'll ask about renewing it.

Both of the coupons are still valid as of April 2025 but I will ask for extending it 🙂

Best regards and have a good day as always!

Arkadiusz
